

DISPOSAL AT THE END OF LIFE OF THE PRODUCT

Guidance on the Disposal of End-of-Life Products

Validyne product(s) should be correctly disposed of at the end of life of the product.

Customers could contribute to resource conservation and prevent potential environmental problems by a simple action — the proper depositing of their old products and its accessories.

Electronic waste is to be disposed of separately from the general waste stream via designated collection facilities identified by governmental approved agencies. By doing so, you will help to conserve natural and environmental resources and you will ensure that product is recycled in a manner that protects human health.

Do's & Don'ts:

Do's:

1. The product should be handed over only to authorized recycler for disposal.
2. Keep the product separate, after it becomes non-functional/un-repairable.

Don'ts:

1. The product should not be opened by the User, but only by authorized service personnel.
2. The product is not meant for re-sale to any unauthorized agencies/scrap dealer.
